

Cross-Over Data Sheet

Date Performed:

Old Emulsion Data			
Old Emulsion #			
Base + Fog	MD	LD	HD
Strip 1			
Strip 2			
Strip 3			
Strip 4			
Strip 5			

New Emulsion Data			
New Emulsion #			
Base + Fog	MD	LD	HD

Average				
---------	--	--	--	--

--	--	--	--	--

Density Difference = HD - LD			
DD =			

Density Difference = HD - LD			
DD =			

Determining Differences Between Old and New Emulsions

	Base + Fog	MD	DD
New Emulsion Average			
Old Emulsion Average			

Difference (New-Old)			
----------------------	--	--	--

Determining New Operating Level from Old Level and Differences

	Base + Fog	MD	DD
Difference (New-Old)			
Old Operating Level			

New Operating Level (Diff + Old)			
----------------------------------	--	--	--
